

**The University of Akron**  
**Department of Theoretical and Applied Mathematics**  
**Assistant Professor**

A tenure-track assistant professor position is available starting August 25, 2008. Applicants must possess a Ph.D. in mathematics or a closely related area by the time of employment. Preference will be given to applicants whose research areas complement department interests in algebra and combinatorics. Within these areas, current research in the department focuses on Finite Groups/Representation Theory and Graph Theory. Strong applicants from other areas will also be considered. Salary is commensurate with background and experience. Startup funds are available.

Priority will be given to applicants who possess experience beyond the doctorate level and demonstrate interest in pursuing external funding. Applicants are expected to provide evidence of an ongoing research program as well as evidence of experience and interest in teaching.

The department offers Bachelor's and Master's degrees in Mathematics and Applied Mathematics and an accelerated 5 year BS/MS program. An Engineering Applied Mathematics doctoral program, emphasizing interdisciplinary applied mathematics, is offered through the College of Engineering. More information about the Department and its programs can be found at <http://www.math.uakron.edu/>.

The University of Akron is a state-assisted metropolitan university in northeast Ohio with approximately 24,000 students. The University is well-known for its interdisciplinary programs and has a world-class polymer science program and widely recognized departments in engineering, science, business and education.

Applicants should submit application letter, curriculum vitae, statement of teaching philosophy, statement of research interests, unofficial copy of graduate transcripts, and three letters of recommendation, at least one of which addresses teaching. Applicants who will attend the AMS-MAA Joint Meetings in San Diego in January 2008, should indicate this in their application letter.
