

---

Please fill out the survey, and turn it in on Friday.

---

1. What is your name?
2. How do you prefer to be addressed (e.g. Jenny, Mrs. Estafen, Ruihua, etc.)?
3. What is your major or field of study?
4. Which mathematics courses beyond calculus have you completed and where? Please indicate also whether you learned any major mathematical concepts in the context of a nonmathematics course. For example: "I did a unit on the wave equation in physical chemistry at Akron U."
5. Why are you taking this course?
6. To what graphing calculator and/or mathematical software packages do you have access (e.g. TI-83, Math Cad, Maple, Matlab)? (Do not list anything you don't know how to use.)
7. Please tell me something else about yourself.
