

Name: _____

3450:222-006 Analytic Geometry-Calc II Test 1 Spring 2005

Directions:

- To receive full credit, you must show your work.
- The back of the cover sheet contains a modified version of the table “Differentiation Rules” from your textbook. You may detach the cover page if you like. Make sure you submit your cover page along with your exam.
- If you need some scratch paper, please ask. Submit it along with your test (but if you want it graded, make a note on your exam paper).
- Note that different problems have different point values.
- You have 50 minutes, plus a ten-minute grace period to complete the exam.
- The time will be written on the board every ten minutes.
- You are permitted to use a calculator, TI-86 or below. Use of other calculators will result in a test grade of zero.
- The exam will be graded out of 100 points.
- **You are responsible for answering questions on four pages. There are six problems.**
- **The exam is printed two-sided.**
