Prof. Timothy S. Norfolk, Ph.D.
3450:635:001 Spring 2010

• “Awesome course.”
• “Outstanding lecturer. Very charismatic with excellent command of complex material. Too bad I didn’t have him for Calc I, II, III.”
• “Sweet!”

• “I wanted to come up with something clever for you to post on your web page, but I’m not creative enough to come up with something good. So, I’ll say my usual. I enjoyed the teaching style and felt that Dr. Norfolk really wanted us students to do well. He was there to answer questions and guide us in the right direction to solve a problem. I thought the class and assignments were fair. I would take another class taught by Dr. Norfolk.”
• “This topic could have been extremely dull, but you made it interesting and fun. Great work, Dr. Norfolk.”
• “Can’t believe he gave up the mother country for a lousy 1200 a year.”
