

Wolfram Technology Seminars University of Akron

"...What you'll learn
in 15 minutes
can save hours
and days of effort..."

MONDAY, MARCH 16

1:30pm–2:30pm (business/statistics focus, includes Q&A)

Room 438, College of Arts & Sciences Building

3:20pm–4:10pm (general overview, includes Q&A)

Room 408, Leigh Hall

Mathematica[®] and Wolfram|Alpha[®] in Education and Research

During this free seminar, we will explore using *Mathematica* and Wolfram|Alpha for a wide variety of practical and theoretical applications across a variety of disciplines. Attendees will not only see new features in *Mathematica* 10 and Wolfram|Alpha, but will also receive examples of this functionality to begin using immediately. No experience with *Mathematica* or Wolfram|Alpha is required, and students are encouraged to attend.
