Text:

*Elementary Analysis*, 1st Edition, Ross

Homework, Exams, Grades:

I will assign a homework set about every week. All assigned problems will be collected and some will be graded. Late homework will not be accepted. I will drop your lowest homework grade at the end of the semester. Students taking the course at the 500 level will be assigned additional HW problems throughout the semester.

We will have two in-class exams and a cumulative final exam. The in-class exams are tentatively scheduled as follows:

- **Exam 1** Monday, February 18th
- **Exam 2** Monday, April 1st

The time and location of the final exam will be announced toward the end of the semester.

Points for homework and exams will be allotted as indicated in the table above. I will assign letter grades using the standard cutoffs: 90-100% of the total possible points is an A, 80-89% is a B, etc. Pluses and minuses will be added at my discretion. Also, I may curve at the end of the semester if I feel a curve is appropriate.

Please note that there will be no extra-credit assignments in the course for any reason.

Make-up Policy:

There will be no make-up exams for any reason. If you miss an exam with a documented university-sanctioned excuse (see university regulations for a list), then I will use the grade on your final exam in place of the missing exam. You must contact me and provide documentation within one week of your absence (except in extreme cases). If you miss an exam without a documented university-sanctioned excuse or if you fail to contact me and provide documentation within one week of your absence, you will get a zero.

Other Comments:

Do not use laptops during class. Likewise, do not text during class. Repeated offenders will lose points from their final exam.

Students whose names do not appear on the university’s official class list by Monday, January 28th will not be permitted to participate, i.e., to attend class, to take exams, or to receive credit.

Timely information about the course, like assigned homework problems, will be posted on my website.

The deadline for withdrawing from the class is Sunday, March 3rd.

Graphing calculators will not be permitted on exams.
