Mathematics Tutorials in Calculus and Algebra?

There are extensive mathematics materials at the AcroT_EX Web site at **The University of Akron:**

<http://www.math.uakron.edu/~dpstory/acrotex.html>

Some highlights of the site are **e-Calculus**, a Calculus 1 tutorial; **Algebra Review in Ten Lessons**, self-explanatory; and some **Mathematical Games**.

Note: All materials available at this site are in PDF, Adobe's Portable Document Format. If your browser does not already have a *free* Acrobat Reader, you can download it from links provided at the above web site.
